Everyone Claim and Actual Request

A broad peer claim needs a smaller factual account.

Other families' choices and this household's decision are separate matters.

Hypothetical example: a child changes everyone goes to the club to two friends said they attend, while the parent checks the actual schedule before deciding.

01 Hear the request under the word everyone

Hear the specific optional request.

Item or permission requested

Child's stated concern

Original everyone claim

02 Ask for the observation without demanding a peer investigation

Record what the child directly observed or heard.

Direct observation or remembered words

People or situation actually covered

Unverified detail to leave uncertain

Everyone Claim and Actual Request / Review & follow-through

03 Keep the factual claim separate from the family decision

Check the household decision and essential missing details.

Household responsibility affecting the request

Essential adult question

Current pending or decided status

04 Give the child more accurate words for the conversation

Practice an accurate request and give the actual answer.

More accurate request sentence

Actual household answer

Adult overstatement needing correction
