Peer Answer Permission Check

Confirm the answer before the group acts on it.

Requested help can support a child's voice; an unapproved reply needs checking.

Hypothetical example: a friend chooses an activity on another child's behalf; the parent asks the child directly, hears a different preference, and helps correct the organizer's list.

01 The exchange

Write what was asked and what was actually said.

Question directed to the child

Friend's reply

Audience that heard the reply

02 Permission and answer

Check with the child before deciding what the reply means.

Help the child actually requested

Child's confirmed answer

Detail still needing clarification

Peer Answer Permission Check / Review & follow-through

03 Next speaking turn

Choose wording the child can use.

Child's preferred boundary sentence

Help they want to authorize

Adult support if interruptions continue

04 Correct the plan

Send the actual answer to the person using it.

Action based on the earlier reply

Person needing the correction

Confirmed options still available
