Find the Game's Reporting Route Before Your Child Needs It - working notes

One situation. Clear facts. An honest next step.

Review the approved game's current reporting and moderation features together without submitting a pretend report. Teach the child how to get adult help and distinguish a submitted report from an actual response.

Hypothetical example: A child can find a report menu but does not understand its voice-chat categories. The parent reads the official help and explains the route without sending a test report.

01 Look for the control before an incident creates pressure

Locate official reporting information for the child's actual game and profile.

Game or service

Profile and device scope

Official help location

02 Explain the difference between stopping contact and asking for review

Check what contact controls and moderation tools actually do.

Contact-control meaning

Reporting or moderator scope

Limit to explain to child

Find the Game's Reporting Route Before Your Child Needs It - working notes / Review & follow-through

03 Walk the route without sending a false report

Walk the route without submitting a pretend allegation.

Non-submitting walkthrough

Question the instructions answered

Unresolved support question

04 Keep the handoff open after clicking submit

Assign adult follow-through for an actual concern.

Child's adult-help route

Responsible adult follow-through
