Garment Care Handoff

Identify the garment and read its actual care label.

Use the garment's actual care instruction and resolve uncertainty before assigning a laundry method.

Hypothetical example: A family identifies an unfamiliar garment-care symbol and leaves the method unassigned until the instruction is confirmed.

01 Begin with the garment's instruction

Identify the garment and read its actual care label.

Garment

Care label present

Written instruction

Symbol needing clarification

02 Leave an unknown symbol unknown

Record the instruction and any symbol you have not confirmed.

Manufacturer guidance checked
