Athlete Reference Scope and Evidence

Support the athlete with an account you can actually support.

A reference should stay within the coach's real role, evidence and authorized audience.

Hypothetical example: an authorized reference describes an observed team duty and omits an unsupported prediction that the athlete will be selected.

01 Confirm what the reference is actually for

Confirm the reference purpose and intended recipient.

Request and intended recipient

Actual permission or program requirement

Question the reference should answer

02 Describe the role from which you can speak

State the coach's actual observing role.

Real coaching role and time covered

Direct observations available

Subject outside the author's knowledge

Athlete Reference Scope and Evidence / Review & follow-through

03 Choose evidence relevant to the actual request

Choose supported permitted evidence.

Supported contribution to describe

Claim or private detail to remove

Factual item still needing verification

04 Review permission and the final audience

Review and record authorized delivery.

Authorized final scope and channel

Names and recipient checked

Delivered or still-pending status
