Check the Transport Policy Before Offering a Last-Minute Ride - working notes

One situation. Clear facts. An honest next step.

Keep the athlete appropriately supervised while responsible adults arrange an authorized option. In MAAPP-covered travel, one-on-one transport is restricted and relevant consent requirements and exceptions must be checked through the actual policy.

Hypothetical example: A coach cannot verify that a proposed one-on-one ride is permitted and keeps the approved supervised waiting arrangement until an authorized option is confirmed.

01 Keep the waiting arrangement safe

Maintain appropriate supervision while the pickup question is unresolved.

Changed pickup category

Current supervision owner

Responsible contact route

02 Read the actual transport rule

Check the actual organization-specific transportation policy.

Policy source

Authorized person clarifying it

Unresolved exception or consent question

Check the Transport Policy Before Offering a Last-Minute Ride - working notes / Review & follow-through

03 Arrange an authorized alternative

Confirm an authorized option through the responsible adult process.

Permitted option confirmed

Responsible roles informed

Pending step

04 Verify the handoff that actually happens

Verify the actual handoff and keep private details in restricted records.

Actual handoff confirmed

Restricted record location

Future process issue to review
