Credit Protection Scope and Status Record

Write the action's real name.

Similar labels do not establish identical coverage.

Hypothetical example: an adult corrects a household note from freeze to initial fraud alert after reading the actual confirmation, then reviews the official scope before deciding any further action.

01 Name the action before recording it as done

Identify the actual named action and affected person.

Action name on confirmation

Affected account holder

Separate service that may be confused with it

02 Understand the different jobs

Read its official scope and requirements.

Official guidance source

Bureaus involved for this action

Duration and scope stated

Credit Protection Scope and Status Record / Review & follow-through

03 Use the affected person's authorized process

Follow the authorized bureau process privately.

Authorized process used

Actual request or confirmation date

Pending verification without private details

04 Keep scope and follow-through visible

Record confirmed coverage and remaining work.

Confirmed action by bureau

Relevant review or end date

Remaining official recovery or access step
