Find Who Receives the Crowdfunding Money - working notes

One situation. Clear facts. An honest next step.

Identify who controls and receives the campaign funds, how they reach the intended beneficiary and what fees or delays apply. A moving story or a friend's share does not establish that chain.

Hypothetical example: An adult recognizes the beneficiary but verifies the organizer's connection and payout arrangement through a separate known route before deciding about the gift.

01 Separate the names on the page

Distinguish the public organizer and intended beneficiary roles.
