The Season Equipment Closeout

Return what was borrowed and give remaining gear a clear outcome.

Storage begins after ownership, care, and unresolved questions are addressed.

Example: a team item is returned by the agreed date. A family practice bag is cleaned according to its instructions and stored on a labeled shelf. Protective gear needing review is held separately from ready supplies.

01 Confirm equipment ownership

Put borrowed and team items first.

Items owned by the family

Items borrowed / owner

Return arrangement / due date

Ownership question to resolve

02 Record condition honestly

An inventory does not clear protective gear.

Visible condition or missing part

Care instructions available

Protective review / history gap

Item held out of use

The Season Equipment Closeout / Review & follow-through

03 Choose the item's outcome

Keep actions separate from wishful intentions.

Return item / completion owner

Keep item / next purpose

Verify item / appropriate reviewer

Pass-on eligibility or other resolution

04 Close the season record

Finish the work before storing the bag.

Cleaning or action completion date

Returns actually completed

Storage location / label

Next-season fit and requirement check
