Read Acts 6 Without Calling an Overlooked Need a Distraction - working notes

One situation. Clear facts. An honest next step.

Identify the neglected provision, the responsibility assigned and the work that continued. Make a present need answerable without claiming that your household reproduces the apostles' office.

Hypothetical example: A family agrees that an adult will set aside the late-arriving person's dinner and check afterward whether it was available. The comparison is an application, not a claim about church office.
