Read Moses' Question in Exodus 3 Beside God's Answer - working notes

One situation. Clear facts. An honest next step.

Identify God's stated concern, the commission and the answer to Moses' question. Keep this encounter distinct from a parent's impression about a new project.

Hypothetical example: A parent notices that an explanation emphasized self-confidence while missing God's answer about presence. The family rereads the exchange rather than declaring an identical new commission.
