Read Solomon's Request for Wisdom Beside the People He Must Judge - working notes

One situation. Clear facts. An honest next step.

Read Solomon's request in relation to his responsibility for the people and the judgment that follows. Ask for wisdom for your own duty without claiming his knowledge or imitating the sword scene.

Hypothetical example: Two children dispute a book-return agreement. The parent checks what can be checked and makes a return plan without a threat or an invented verdict about motives.
