The Prayer Request Sharing Permission

Pray faithfully. Share only what is agreed.

A request for prayer deserves care; sharing its details requires a separate responsible decision.

Example: a person approves a brief request for wisdom within a small group and declines a public announcement. The family uses only the approved wording and asks again before widening it.

01 Propose the request

Use minimal words and no extra private story.

Proposed prayer wording

Identifying details to omit

Person or adult to ask

Purpose of sharing

02 Confirm the audience

Describe the actual channel honestly.

Intended people or group

Where request would appear

Forwarding or access uncertainty

Narrower option if needed

The Prayer Request Sharing Permission / Review & follow-through

03 Record the permission

A smaller permission is a complete answer.

Exact wording approved

Audience actually approved

Details not approved

Protective-care exception to address

04 Review an update or change

Wider sharing requires another decision.

Approved request actually sent

New audience or update proposed

Fresh permission or declined change

Correction or removal to request
