# Family Recipe Version and Change Record

*A suggestion and a tried change need different labels.*

Keep the original and record only the change you can describe.

Hypothetical example: an adult saves the original page, records the exact optional topping arrangement used at one dinner, and leaves an untried ingredient idea marked proposed.

## 01 Preserve the original

Identify and save the original recipe before editing.

Original source and version

Retrievable original location

Person making the change record

## 02 Describe the edit

Write the exact change and the step it affects.

Original amount or instruction

Changed amount or instruction

Affected step and unresolved consequence

# Family Recipe Version and Change Record / Review & follow-through

## 03 Record its status

Separate actual use, proposals and uncertain memory.

Tried date or proposed status

Observation from the actual occasion

Detail still needing confirmation

## 04 Choose the current version

Tell the next cook which version to use.

Current agreed version

Active instructions and retained original
