Pregame Routine Access Review

Shared preparation should not acquire an invented peer gate.

The coach owns access to approved team instruction and the distinction between required and optional participation.

Hypothetical example: a teammate excludes a newcomer from the task briefing, and the coach restores the approved shared place while keeping an optional tradition optional.

01 Ask what the routine is supposed to serve

Identify the routine's actual purpose and status.

Routine being used

Approved required or optional status

Actual program arrangement

02 Check the actual exclusion before assigning motives

Record the supported access problem.

Words or actions directly observed

Account still uncertain

Invented access restriction to address

Pregame Routine Access Review / Review & follow-through

03 Give the newcomer the current permitted role

Explain the newcomer's permitted role.

New athlete's clear place and duty

Optional participation choice

Current instruction to explain

04 Correct the access rule and observe the next gathering

Correct the restriction and observe the next gathering.

Specific conduct boundary

Staff member observing the next gathering

Actual access outcome or further concern
