# Rain Does Not Turn the Garage Into a Grill Space - working notes

*One situation. Clear facts. An honest next step.*

Use gas and charcoal grills outdoors in an appropriate location. CPSC says never use them in a garage or other listed enclosed or unsuitable spaces; choose another cooking plan when the outdoor setup cannot be used.

Hypothetical example: Rain prevents use of the planned outdoor setup. An adult chooses another meal instead of moving the grill into the garage.

## 01 Change the location decision before lighting

Check the proposed grill location before lighting.

Intended outdoor location

Weather change affecting use

Adult making the location decision

## 02 Use outdoors in its actual meaning

Read the outdoor-use and placement requirements.

CPSC instruction consulted

Manufacturer placement directions

Unresolved location restriction

# Rain Does Not Turn the Garage Into a Grill Space - working notes / Review & follow-through

## 03 Choose an alternative the kitchen can finish

Choose a suitable alternate meal if needed.

Alternate cooking method or meal

Food storage arrangement

Changed plan communicated

## 04 Keep the responsibility through shutdown

Assign supervision shutdown and proper storage.

Supervising adult

Shutdown and cooling instructions

Storage task still open
