Waiting Period Handoff

Confirm the actual start information and responsible adult.

Give the waiting period a clear boundary and a responsible adult handoff rather than treating it as wasted time to fill.

Hypothetical example: At an early arrival, a parent confirms the meeting point and agrees on a quiet waiting choice with a clear return signal.

01 Start with the real information

Confirm the actual start information and responsible adult.

Activity

Confirmed start information

Responsible adult

Meeting point

02 Choose the place before the pastime

Choose a clear waiting place and suitable ordinary activity.

Waiting place

Suitable quiet choice

Permission needed

Item to keep ready

Waiting Period Handoff / Review & follow-through

03 Explain what readiness means here

Explain the signal for returning attention to the event.

Return signal

Person giving signal

Question if time changes

Child's understanding

04 Respond honestly to a changed start

Review the handoff and any changed information.

Actual start

Handoff completed

Change to remember

Next waiting plan
