Privilege Restoration Agreement

Make the way back clear and keep your promise.

A restoration condition should be connected, understandable, and realistic. Adults must honor the return they promise.

Example: optional game access pauses after a time-limit breach. The child practices the storage cue with support. At the agreed review, the parent restores access under the stated limit.

01 Define the pause

Keep the response connected to the actual misuse.

Optional privilege paused

Specific misuse

Necessary access preserved

Original limit

02 Choose the repair

Prepare a realistic action and suitable help.

Connected repair

Practice action

Child support needed

Child explains agreement

Privilege Restoration Agreement / Review & follow-through

03 Set the return

Give a clear condition and adult promise.

Restoration condition

Review time

Adult promise

Initial supervision

04 Honor and review

Check the condition and first returned use.

Condition actually met

Access restored or missing step

First use observed

Agreement clarification
