Shopping Bag Ready-Set Return

Unpacking is finished when the usable bags reach their next start.

Return shared carry items to an agreed usable place.

Hypothetical example: the unpacking adult puts the agreed ready set on the departure shelf, assigns care of one remaining bag, and tells the next shopper which bags are available.

01 Choose the destination

Name the next shopper and the place their trip starts.

Next shopping adult

Actual departure place

Agreed ready-bag location

02 Check the bags

Separate usable bags from unfinished care tasks.

Bags ready under their actual instructions

Bag needing care or an adult decision

Care instruction and responsible adult

Shopping Bag Ready-Set Return / Review & follow-through

03 Build the ready set

Gather the chosen set and store excess items separately.

Set chosen for the planned trip

Excess storage location

Item excluded from the ready set

04 Finish and review

Return the set and tell the next adult about a change.

Person completing the return

Handoff or location change communicated

Actual next-trip issue to review
