Juice Treatment and Serving Record

Ask while there is still time to choose.

A missing warning cannot supply a missing treatment answer.

Hypothetical example: a host keeps an unlabeled cider jug separate, asks about its treatment and offers a different suitable drink while the answer remains unknown.

01 Ask the product question before buying for the group

Identify the intended juice and the people being served.

Product or seller identified

Intended meal or gathering

Adult making the drink choice

02 Understand why the warning may be missing

Confirm treatment through the current label or seller.

Actual treatment wording

Label or seller answer source

Unknown fact and alternate drink

Juice Treatment and Serving Record / Review & follow-through

03 Carry the answer into the serving plan

Carry product and storage information into serving.

Current storage directions

Contents kept distinguishable

Serving adult receiving the information

04 Teach children the handoff rather than the investigation

Assign the adult answer and child's simple handoff.

Child's ask-an-adult wording

Adult available at the event

Final served or held status
