The Sports-Day Snack Purchase Sheet

Count the people, compare packages, and confirm the team request.

A food purchase should fit the family's needs and the actual trip.

Example: a family records six snack occasions, checks supplies already at home, and compares package prices in the same unit. A separate team contribution is confirmed with the organizer before purchase.

01 Count the trip's food needs

Keep meals and every traveler in view.

Family members traveling

Planned snack occasions

Meal arrangement to confirm

Foods already available at home

02 Check suitable food choices

Use actual household and organizer requirements.

Familiar food choices

Dietary / safe-eating needs

Package storage instructions

Venue or team restrictions checked

The Sports-Day Snack Purchase Sheet / Review & follow-through

03 Compare the actual purchase

Consider both unit cost and total spending.

Package amount / same-unit price

Planned use / amount remaining

Purchase total you can cover

Team contribution / delivery time

04 Review packing and cost

Use the real receipt without inventing savings.

Shopper / packing owner

Storage equipment confirmed

Actual receipt total

One correction for the next trip
