Practice Observation and Teaching Review

Observe a lesson before judging the session.

A useful observation records a visible sequence and checks the teaching intention before recommending a change.

Example: an observer notes a hidden station label, asks the lead coach about the transition, and proposes a visible label for the next approved session.

01 Set the question

Agree what the observer will examine.

Lesson question

Session slice to observe

Observer role and location

Lead coach agreement

02 Record the sequence

Write visible actions, not motives.

Direction actually given

Actions actually observed

Relevant setup or marker

Observation limits

Practice Observation and Teaching Review / Review & follow-through

03 Check the account

Review with the teaching coach.

Intended lesson

Teaching coach explanation

Detail the observer missed

Agreed account

04 Choose the adjustment

Give the next review a clear purpose.

Keep or change and why

Adult responsible

Next observation opportunity

Evidence to look for
