Practice Partner Assignment Sheet

The responsible coach should choose task-appropriate pairs, state the assignment clearly, and resolve unmatched athletes or concerns without public popularity choices.

The responsible coach owns task suitability and the criteria for the actual activity.

Example: An organizational cleanup duty has seven athletes. The coach approves two pairs and one three-person collection group, assigns every child a place, and names the assistant who handles a late arrival.

01 Confirm the activity

The responsible coach owns task suitability and the criteria for the actual activity.

Approved activity or duty

Responsible coach

Actual pairing criteria

Criteria or permission still unresolved

02 Count the group

Use actual attendance and an approved plan for changes.

Present athletes or approved identifiers

Number of pairs possible

Approved odd-number arrangement

Late arrival or changed participation plan

Practice Partner Assignment Sheet / Review & follow-through

03 Make assignments

Give each athlete a clear place without public ranking.

Pair assignments and locations

Current task for each pair

Adult resolving an unmatched athlete

Plain assignment announcement

04 Check and improve

Review actual inclusion and unresolved concerns.

Athlete still unassigned

Concern and appropriate response route

Adjustment actually made
