Practice Restroom Request Adult Plan

Prepare the adult response before the hand rises.

An ordinary need should meet a clear authorized arrangement.

Hypothetical example: A child asks during instruction; the coach acknowledges the request, uses the approved supervision arrangement and repeats the missed task direction on return.

01 Answer the request rather than making it a performance

Confirm the actual venue and program procedure.

Governing procedure to confirm

Responsible program contact

Unresolved staffing or venue question

02 Prepare the route before the session begins

Explain an accessible request and help route.

Ordinary request method

Immediate-help route

Appropriate access support owner

Practice Restroom Request Adult Plan / Review & follow-through

03 Carry the approved arrangement through the interruption

Carry the approved response and return accounting.

Adult receiving the request

Approved supervision response

Return and missed-instruction procedure

04 Review the adult response without collecting a body report

Repair a procedural gap without collecting private details.

Procedural gap actually observed

Private detail excluded from this sheet

Program owner accepting the follow-up
